Experience

DLRdmv
UI/UX Developer

December 2023 – Now
Dallas, TX

Works across between design and development to deliver front-end design solutions.

Create user interface mockups and user experience prototypes using Figma.

Build UI components using Angular, Typescript, JavaScript, HTML, and CSS/Sass.

Collaborate with back-end developers to integrate APIs to ensure end-to-end product experience.

OTA World
Sr. UX Designer

January 2022 – January 2023
Carrollton, TX

Led a design team and managed multiple projects, including user interface (UI) development, web design, branding, and marketing materials.

Built web product pages using HTML, CSS, and JavaScript.

Maintained e-commerce websites using Shopify.

Mentored junior designers to improve team performance and maintain design quality.

OTA World
UX Designer

January 2020 – January 2022
Carrollton, TX

Designed responsive user interface layouts and features, focusing on user interaction flow, design details, and a mobile-first approach.

Created digital and graphic contents for company marketing using Adobe Creative Suite.

Planned, shot and edited product photography for use in digital and graphic content.

Ravi's Import
Graphic Designer

January 2014 – December 2014
Dallas, TX

Designed and produced a wide range of graphic materials such as digital, print, and branding.

Ensured all designs align with brand guidelines, company aesthetics, and project requirements.

Collaborated closely with marketing, sales, and other internal teams to deliver design solutions.

Planned, shot and edited product photography for use in digital and graphic content.

Pantech Wireless
Product Designer

January 2011 – January 2012
Seoul, South Korea

Performed all phases of the mobile design process from concept to design mockups.

Practiced user experience design methods, including user research, personas, user journey maps, storyboards, user flows, wireframes, and prototypes.

Collaborated with a manager and a team of designers to refine concepts, articulate design decisions, and drive the product design development process to completion.
