Jay Kim

Product Designer | UX/UI Engineer

Product Designer and UX/UI Engineer who bridges UX design and front-end development to deliver intuitive, production-ready digital experiences. Experienced in interaction design, Figma prototyping, and building reusable UI components with Angular, TypeScript, and Sass. Skilled in leading design teams and collaborating with engineers to create consistent, scalable product experiences.

EXPERIENCE

Dec 2023 — Present

DLRdmv

UI/UX Developer

Translate Figma designs and interactive prototypes into reusable Angular components using TypeScript and Sass, bridging UX design and production development.

Collaborate with back-end engineers to integrate APIs and deliver consistent, functional user interfaces across web applications.

Contribute to a shared UI component library to improve design consistency and support more efficient front-end development.

Jan 2020 — Jan 2023

OTA World

Sr. UX Designer Jan 2022 — Jan 2023

Led a team of four designers and oversaw company-wide design projects, delegating tasks, tracking progress, and providing creative direction.

Mentored designers, reviewed deliverables, and personally refined final designs to ensure quality and consistency before launch.

Developed and maintained Shopify storefronts and product pages using HTML, CSS, and JavaScript.

UX Designer Jan 2020 — Dec 2021

Designed mobile-first, responsive web interfaces with a focus on usability, interaction design, and visual consistency.

Created digital design assets supporting web experiences and marketing initiatives.

Jan 2014 — Dec 2014

Ravi's Import

Graphic Designer

Designed digital, print, and branding materials in collaboration with marketing and sales teams, ensuring consistency with brand guidelines.

Jan 2011 — Dec 2011

Pantech Wireless

Product Designer

Designed mobile product interfaces from concept to high-fidelity mockups using UX research, personas, user flows, wireframes, and prototypes.

Collaborated with design leadership to refine concepts, communicate design decisions, and deliver user-centered interface designs.

2013 — 2024

Freelance Designer

CFNI / adpop | e.Nue Design | KTN | Pin Design | Binnerri Church

Delivered web, visual, and graphic design solutions for clients across digital products, websites, branding, and marketing initiatives.
